Mathematical constant Wikipedia

A mathematical constant is a special number that is significantly interesting in some way. Constants arise in many areas of mathematics with constants such as e and π occurring in such diverse contexts as geometry, number theory and calculus. What it means for a constant to arise naturally and what makes a constant interesting is ultimately a matter of taste and some mathematical

List of Indian inventions and discoveries Wikipedia

This list of Indian inventions and discoveries details the inventions, scientific discoveries and contributions of premodern and modern India including both the ancient classical and post classical nations in the subcontinent historically referred to as India and the modern Indian state. It draws from the whole cultural and technological history of India during which architecture, astronomy,
