Quaternion Wikipedia

A unit quaternion is a quaternion of norm one Dividing a non zero quaternion q by its norm produces a unit quaternion U_q called the versor of q – Every quaternion has a polar decomposition – $\hat{q} = \hat{r} \hat{u} \dots$

Using conjugation and the norm makes it possible to define the reciprocal of a non zero quaternion The product of a quaternion with its reciprocal should equal 1 and the

Ideas O Reilly Media

Changing contexts and intents The internet itself is a changing contextâ€™re right to worry about data flows but we also have to worry about the context changing even when data doesnâ€™t flow

Cross platform software Wikipedia

In computing cross platform software also multi platform software or platform independent software is computer software that is implemented on multiple computing platforms Cross platform software may be divided into two types one requires individual building or compilation for each platform that it supports and the other one can be directly run on any platform without special preparation
