List of ships of the United States Army Wikipedia

During World War II the U.S. Army operated approximately 127,800 watercraft of various types. Those included large troop and cargo transport ships that were Army-owned hulls, vessels allocated by the War Shipping Administration bareboat charters and time charters. In addition to the transports, the Army fleet included specialized types. Those included vessels not related to transport such as:

List of World War II vessel types of the United States
