National Statement on Ethical Conduct in Human Research

Funding. One researcher has the potential to improve millions of lives. We provide funding for research through our grant system with a transparent peer review process to determine how funding is allocated.

Metadata Wikipedia

History. Metadata was traditionally used in the card catalogs of libraries until the 1980s when libraries converted their catalog data to digital databases. In the 2000s, as digital formats were becoming the prevalent way of storing data and information, metadata was also used to describe digital data using metadata standards. The first description of meta data for computer systems is
