Net neutrality Wikipedia

Network neutrality, or more simply net neutrality, is the principle that Internet service providers should treat all Internet communications equally and not discriminate or charge differently based on user, content, website, platform, application, type of equipment, or method of communication. When net neutrality is required, Internet service providers (ISPs) may not intentionally block, slow

WOA Economics Growth Disparity of Wealth

The expansion of our wealth is only possible so long as the oil supply continues to expand, says oil expert Dr. Colin Campbell. The financial and investment community is beginning to accept the reality of Peak Oil, which ends the First Half of the Age of Oil during which banks created capital by lending more than they had on deposit, being confident that tomorrow's expansion would be fueled by cheap
